EXPERIENCE

Porch Light — *Web Developer*

June 2025 - August 2025

At Porch Light, I collaborated with a coworker to design and implement an e-commerce WordPress website, ensuring seamless functionality by integrating inventory across disparate databases. My responsibilities also included managing and updating the store's inventory, culminating in the successful deployment of the website.

Dnuevo Design— *Web Developer*

July 2024 - February 2025

I developed and maintained two websites, leveraging HTML, CSS, and JavaScript for the frontend and Node.js with Express for the backend. I engineered custom functionalities like authentication and messaging systems, integrated Google Analytics to enhance UX/UI, and implemented SEO strategies to improve visibility and performance through site speed optimization and responsive design.

Dupont — *Operator II*

February 2019 - July 2024

I managed a team of three, overseeing daily operations, delegating tasks, and ensuring project deadlines were met. My role involved coordinating workflow, providing training, and maintaining high standards of productivity and quality, while also collaborating with other departments to streamline processes and improve efficiency.

Army Reserve — *Horizontal Construction Engineer*

November 2015 - November 2023

I operated heavy construction equipment for engineering projects, encompassing earth leveling, site excavation, and equipment transport, and provided essential support to other military specialties.

GMI — *Security Guard*

September 2017 - May 2018

As a Security Guard, I patrolled assigned areas to maintain a safe environment, actively monitoring for suspicious activity and resolving security concerns. I was responsible for detailed incident reporting and demonstrated a strong ability to de-escalate conflicts, coordinating with emergency services as needed.
